Comments on any of the above items.

- 100% dedicated TA, well-prepared for class, teaches us many useful concepts and ideas
- The TA was not effective in communicating ideas across. This may be due to the pronunciation of some words

What specific suggestions do you have to help your TA improve his/her teaching?

- Maybe list out recitation objectives before class
- Going over concepts slower
- Try to be more aware of the students, most of our questions go unnoticed/unanswered.
