Best TA EVAAR!!

He was the best TA I've ever had.

- Awesome job
- enjoyed having you as a T.A.
- very helpful

Michael Tait is a fantastic TA. He goes over all material in a very clear and logical manner. All of his examples are both challenging and yet easily applicable to the lesson learned the day before. His instructions for people are also clear, and he provides us with the materials necessary to complete the labs.

The labs for this course do not have an effect on the grade as discussed in the syllabus. I would prefer that there be a separate grade associated w/ learning the computer (Maple) related material. It seems we are getting little consideration for the work being done and being graded almost entirely on exams.

TA is well prepared and knows the course material. Discussion and lab sections with him help me understand the material better.
