Homework #12

11.10 #59, 67, 70

11.11 #2 parts (a) and (b), 13 parts (a) and (b), 26, 28

Although you are not being assigned the graphing parts of 2 and 13, I encourage you to graph the Taylor polynomials in those problems against the graphs of functions being approximated, and see how they compare near the center.

Correct your midterms! (due Friday, 11/22).
